PRESS RELEASE

Strategic Partnership between FinTHESIS and the Military Club

A partnership of strategic importance is being launched by the mortgage brokerage company FinTHESIS with the Military Club, offering its Members—active and retired personnel of the Armed Forces and Security Services, as well as the corresponding civilian staff—the opportunity to acquire a home under preferential terms, in addition to the free service provided by FinTHESIS to every interested party.

As part of this collaboration, FinTHESIS, through its certified advisors, exclusively undertakes communication with interested parties and provides all necessary support for the electronic submission of the application as well as the preparation of the loan file to be sent to the banks. FinTHESIS collaborates with all banks, collects all advantageous offers, and relieves interested parties from the obligation to visit bank branches, while also assisting in the selection of the most suitable financing program.

The entire mediation process is **COMPLETELY FREE**, and furthermore, Military Club members, by submitting their application through FinTHESIS, are not charged the file review fees for the loan they choose. The service applies to loans from any bank chosen by the applicant.

FinTHESIS is a mortgage brokerage company, certified and licensed by the Bank of Greece. It mediates for the granting of mortgage loans, undertaking the entire process from the submission of the application to the disbursement of the loan.

The Military Club was founded in 1995 with the aim of reducing the cost of living for the personnel of the Armed Forces and Security Services. This is achieved through strategic agreements with companies that provide everyday services and products.

Through these agreements, special privileges are offered to those who register as members of the Military Club. Registration is completely FREE through the Military Club website, and members receive a digital membership card.

This collaboration ensures Military Club Members a range of benefits such as:

- Access to loans from all banks and comparison of all mortgage programs
- Immediate pre-approval, provided the requirements are met, so that the applicant knows the loan amount and the installment they can support
- Guidance from certified mortgage loan advisors
- Securing favorable financing terms and a higher likelihood of approval
- Explanation of complex terms and management of any issues that may arise in a complex banking product such as a mortgage loan
- Saving time from visiting all banks to decide which loan best serves the applicant's needs
